

Reactor™ Spray Foam and Polyurea Equipment

For fast-set plural-component applications

PROVEN QUALITY. LEADING TECHNOLOGY.

Graco Has You Covered

No matter what the application, Graco has the solution

Whether you're spraying foam or applying polyurea coatings, Graco Reactor® Plural-Component Systems help you get the job done with superior results. Available in air, electric or hydraulic technology – we have the right equipment to meet your needs.

Which system is right for you?

Technology types: A = air; E = electric; H = hydraulic

Three-Year Extended Warranty

We stand behind every piece of equipment we manufacture with one of the industry's strongest warranties. Spray with the confidence that you will probably never need to use Graco's warranty, but if you do – Graco Has You Covered.

Reactor 2 systems offer a three-year extended warranty on control modules, display module and electric motor (E-series only). See product manual for specific warranty details.

SPRAY FOAM APPLICATIONS

E-30i

COATINGS APPLICATIONS

E-XP2i

Understand Spray Performance

Performance charts with mix chamber choices

Use these charts to help identify the system that will work most efficiently with each mix chamber. Flow rates are based on a material viscosity of 60 cps. *See examples below.*

How to use these charts

- Select spray pressure
- Select mix chamber or flow rate
- Choose equipment model

Note: Darker shading includes equipment models shown in lighter shaded areas.

Spray Foam Example

Mix chamber: AR6060 (03)

Pressure: 85 bar (1250 psi)

Flow rate: 10 kg/min (22 lb/min*)

Reactors H-30, E-30, H-40, H-50

Coatings Example

Mix chamber: AR2929 (00)

Pressure: 105 bar (1500 psi)

Flow rate: 3,4 l/min (0.9 gpm*)

Reactors E-XP1, E-XP2, H-XP2, H-XP3, E-10hp

**Output of flat tip will be slightly less than round equivalent*

Applications

Spray Foam

- Residential & commercial wall insulation
- Aerospace
- Concrete lifting
- Rim and band joist
- Roof insulation

Protective Coatings

- Adhesive and caulking for flooring
- Decorative coatings
- Marine and shipbuilding
- Tank and pipe coating
- Waterproofing
- Wastewater treatment
- Truck bedliners

SPRAY FOAM EQUIPMENT

COATINGS EQUIPMENT

Advancing the Industry

Like you, we want customers to be completely satisfied with their spray foam and coatings application investment. Graco's goal is to provide equipment advancements that help you and your crews apply materials more accurately and more efficiently – as the material suppliers intended, to help grow your business.

Better control

Advanced control technology

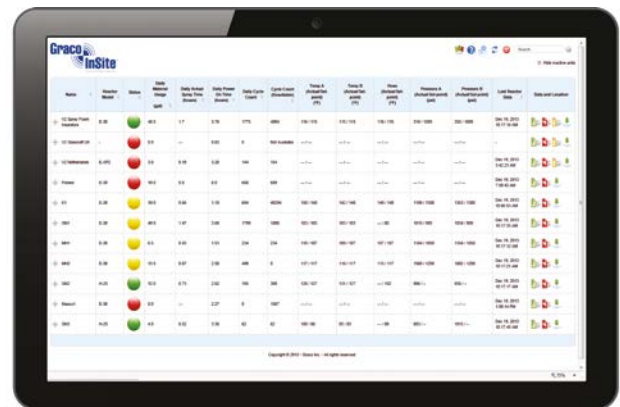

Advanced Display Module (ADM) is the standard interface for all Reactor 2 systems. With the ability to track, monitor and save project information, the ADM also has the ability to download data onto a USB drive for further analysis.

Screen shown:

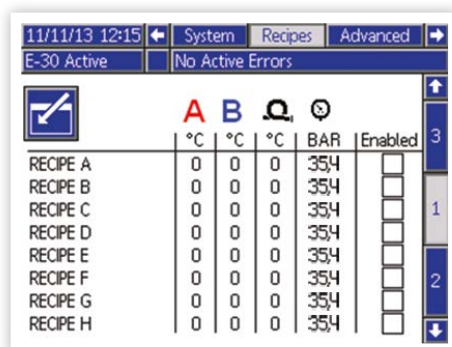

Drum fluid levels – easy indication when you are running low on chemical. One of many screens available on the ADM.

Graco InSite™ Remote Reporting Technology

The power to control your business – wherever you are. The information Graco InSite gathers can save you money, help you bid jobs more accurately and troubleshoot problems more quickly, saving lost overhead and revenue. The data it collects is stored and available anywhere you can access the Internet. For full Graco InSite details and to navigate a demo, visit gracoinsite.com! Graco InSite is standard on Reactor 2 Elite models.

Better spray performance

Precise material application

The ADM lets you store up to 24 material recipes, so switching material spray parameters is fast, easy and trouble-free. By reducing human error in entering set points you're more likely to spray material as the material supplier intended.

Easier to service

Try it now!

Reduce your downtime with QR codes

Error codes appear on your ADM with a helpful QR code. The QR codes explain the problem and provide solutions by simply scanning the code with your smart phone or device. The scan takes you directly to help.graco.com that provides up-to-date advanced trouble shooting information.

Peace of mind

Advanced electronics

Graco designed the electronics in the Reactor 2 systems to a stringent electronics reliability standard. These modules are more robust and able to withstand a wider range of power spikes or surges.

Sacrificial Surge Protector for added protection

As an added level of protection, Graco also added a sacrificial surge protector to Reactor 2 systems. If there is an excessive power spike, you only have to replace this smaller, less expensive part – not the entire control module. All Reactor 2 models include a spare sacrificial surge protector to get you back up and running immediately.

Portable & Touch-up Systems

What portable & touch-up systems can do for you:

- **Save time** – get smaller jobs done fast without sacrificing performance
- **Self-contained system** – no transfer pumps required
- **Easy to use** – single knob motor operations
- **Provides consistency** – uses standard spray guns you're familiar with

Reactor E-10hp

Fast start-up time for improved productivity

Expand your business with polyurea applications. The Reactor E-10hp sprayer is a smart, affordable investment that will help grow your business. Even though it's an entry level system, it packs plenty of power and uses standard residential electrical outlets – no generator is needed.

Low Level Sensors

- Indicates when material is low (3.8 L / 1 gal remaining)
- No contact with materials – prevents build-up

Boost Heat

- Directs unused power from the motor circuit to additional heater rods
- Additional heater power brings material to desired temperatures faster during recirculation mode

Insulated Tanks

- Double-wall insulated to retain heat
- Smooth interior lining for easy cleaning
- Improved seal design on lid for better moisture control

Quick knockdown Lower Pumps

- Easy disassembly and maintenance

Temperature Gauges in Y-strainers

- Provides accurate tank temperature readings

Digital Heat Controls

- Allows you to enter the exact temperatures you need
- Uses the same control boards as a standard Reactor

Motor

- Offers 50% more power than the Reactor E-10
- Provides improved spray performance with reduced pressure drop

Robust Hybrid Heater

- More power, faster material handling means more uptime

Reactor E-10

Save up to 30% on material costs compared to disposable foam systems

Reactor E-10 sprayers are ideal for plural-component spray, joint-fill jobs and touch-ups. One person operation saves time and money!

Intuitive Controls

- Easy start and stop
- Digital temperature display

Heater and Hose

- Gives up to 2000 watts to pre-heat circulating material

Electric Motor

- Improved performance
- Reduces operating costs

Power

- Electric power is a low draw and plugs into standard outlets

Entry Level Systems

Reactor E-20 & E-XP1

Durability you've come to expect

Equipped with material data and system diagnostics, the Reactor E-20 and E-XP1 systems provide total control for spraying foam insulation and coatings.

Reliability

- Powerful hybrid heaters
- Accurate heating with precise temperature sensing

Simple Control

- Digital heat and pressure controls

Heater Control Boards

- Longer-lasting modular heater
- Minimize downtime

Hose Heat Transformer

- Does not require tap settings

Pumps

- Quick knockdown for easy maintenance

What an entry level system can do for you:

- **Easy to manoeuvre** – wheeled carts let you get closer to the job
- **Easy to use** – best for low to medium-output applications
- **Affordability** – excellent value for residential and commercial use

Reactor A-25 & A-XP1

Best choice for affordability

The Reactor A-25 and A-XP1 system has the ability to maintain consistent temperature control, even when you're spraying at maximum flow rates – resulting in better quality foam. Have peace of mind with the proven durability of a standard Graco quality air motor.

Three Heat Zones

- Three independent heat zones – ISO, resin and hose heat
- Provide accurate heat control for reliable spraying to handle different chemical viscosities
- Digital temperature controls

Recirculation Manifold

- A quick, easy way to balance system pressures

Hybrid Heater

- Provides better temperature control

DataTrak™ Control

- Resettable counter tracks material usage

NXT® Air Motor

- Low air consumption for increased efficiency
- Muffler provides low operating noise levels
- Air valve provides smooth and rapid changeover

ISO Pump Lube System

- Prevents isocyanate crystallization on the pump seal and shaft

Quick Knockdown Pumps

- Allows for easy service
- Fast disassembly

Mid-production Systems

What an electric system can do for you:

- **Increase productivity** – plenty of power for most residential and commercial applications
- **Smooth and consistent spray pattern** – minimizes pressure fluctuations on pump changeover
- **Free up space in trailer or rig** – smaller footprint when compared to other spray systems

Reactor 2 Electric Series

Proven reliability at an outstanding value

With proven reliability the Reactor 2 E-series is the industry's preferred system. Reactor 2 stand-alone models are available in an E-30 and E-XP2 model.

Advanced Controls

- Easy to operate Advanced Display Module interface
- Graco InSite – Remote Reporting Technology*

Ergonomic Set-up

- Electronics are above the pumps – comfortable working height for easier service

Brushless Electric Motor

- Improved control and performance
- No maintenance needed
- Longer life

Easy Troubleshooting Diagnosis

- Troubleshooting Y-strainer for analog temperature and pressure gauges
- Inlet pressures and temperatures sensor are displayed and recorded on ADM and Graco InSite*

Sleek Design

- 40% smaller footprint than traditional Reactor E-30

*Elite Models

- Graco InSite comes factory installed
- Inlet pressure and temperature sensors (interfaces with Graco InSite)
- Xtreme-Wrap™ Scuff Guard on heated hoses when ordered as a package

High-production Systems

What a hydraulic system can do for you:

- **Dependability** – robust, durable, longest life spray system
- **Reduce downtime** – allows for longer time in between required maintenance
- **Increase daily productivity** – capable of extremely high duty cycle

Reactor 2 Hydraulic Series

Highest value for the best performance

Graco's line of hydraulic Reactors brings increased yield and performance to high-output spraying. Ideal for in-plant OEMs or applicators that spray high volume. Reactor 2 stand-alone models are available in an H-30, H-40, H-50, H-XP2 and H-XP3.

Advanced Controls

- Easy to operate Advanced Display Module interface
- Graco InSite – Remote Reporting Technology* (Included on Elite models)

Ergonomic Set-up

- Electronics are above the pumps – comfortable working height for easier service

Voltage Jumpers

- Available on H-30 and H-XP2 (Inside Electronics Cabinet) allows for one model to be wired to different voltages

Horizontal Pump Line

- Slower cycle rate

Easy Troubleshooting Diagnosis

- Troubleshooting Y-strainers for analog temperature and pressure gauges
- Inlet pressure and temperature is displayed and recorded on ADM and Graco InSite*

Reversing Sensors

- Non-contact for longer life

Consistent Design

- Similar footprint to traditional H-series

*Elite Models

- Graco InSite included
- Inlet pressure and temperature sensors (interfaces with Graco InSite)
- Xtreme-Wrap™ Scuff Guard on heated hoses when ordered as a package

Revolutionize the way you run your business

Each feature in the Reactor 2 system was strategically designed to help your business run smoothly. Software and hardware enhancements for better spray performance. New technologies that add to your bottom line.

Turnkey Systems

Integrated Air Control Panel

- Controls A and B feed pumps, agitator and gun
- One air line connection means less plumbing, less hoses and less assembly time

Gen Set Controls

- Integrated controls allow for convenient and easy start up
- Engine monitoring functionality

Heat Recovery System

- Recovers heat from the engine coolant and transfers it to the A and B materials

Advanced Controls

- Easy to operate Advanced Display Module interface
- Graco InSite – Remote Reporting Technology comes standard

Easy Troubleshooting Diagnosis

- Troubleshooting Y-strainers for analog temperature and pressure gauges
- Inlet pressures and temperatures sensors are displayed and recorded on ADM and Graco InSite

Booster Heat

- 4000 watt heater (included on high-heat systems only)

Fuel Tank

- 83 liter (22-gal) capacity
- Can be remote mounted

Motor Control

- Consistent pressure at the gun for improved spray performance
- Low-pulse design reduces pump change-over fluctuation

Calculate your savings at www.graco.com/integrated

*By replacing a standard 40 kw generator with a 22 kw generator, the system's fuel needs are greatly reduced. Savings are an estimate only. Actual savings may vary.

What a turnkey system can do for you:

- **Save time** – it's easy to install into a spray rig since it's pre-wired with components already selected and installed
- **Save diesel fuel costs** – an average of 50% annually*
- **Eliminate costly power issues** – associated with shore power and low cost generators
- **Improved heating capacity** – adjust temperatures quickly to minimize downtime during recirc
- **Reduce fuel costs even more** – compact, portable design fits into a smaller trailer; smaller trailer means a smaller truck

Reactor 2 E-30i and E-XP2i

Ready for the job site or spray rig – right out of the box

A complete integrated system combines an electric Reactor system, diesel generator, air compressor and air dryer into one package. This patent-pending design provides constant, steady temperature control for superior heating performance without wasting energy. Waste heat from the generator is repurposed to heat the material allowing for a smaller generator.

1 SELECT A SYSTEM

Choose an air, electric or hydraulic model.

KEY FEATURES:

- Optional data reporting capabilities
- Foam models rated at 138 bar (2000 psi, 13.8 MPa)
- Coatings models rated up to 240 bar (3500 psi, 24.0 MPa)

2 SELECT HEATED HOSES

Choose from pressure ratings of 138 to 240 bar
(2000 psi or 3500 psi, 13.8 to 24.0 MPa).
Choose 3/8 in or 1/2 in ID.

3 SELECT HEATED WHIP HOSE

Choose from pressure ratings of 138 to 240 bar
(2000 psi or 3500 psi, 13.8 to 24.0 MPa).
Choose 1/4 in or 3/8 in ID.

4 SELECT A GUN

Choose an air-purge, mechanical-purge or liquid-purge gun
with a round or flat pattern.

SELECT SUPPLY PROCESSING EQUIPMENT

5 SUPPLY PUMP

Choose from diaphragm or piston pumps for standard
materials in drum-mount or wall-mount. Select a 2:1
piston pump for materials with higher viscosities.

6 AGITATOR KITS

Choose a kit to agitate your resin for a consistent coating.
Graco's patented Twistork® agitators are very low shear to
minimize material frothing.

ABOUT GRACO

Founded in 1926, Graco is a world leader in fluid handling systems and components. Graco products move, measure, control, dispense and apply a wide range of fluids and viscous materials used in vehicle lubrication, commercial and industrial settings.

The company's success is based on its unwavering commitment to technical excellence, world-class manufacturing and unparalleled customer service. Working closely with qualified distributors, Graco offers systems, products and technology that set the quality standard in a wide range of fluid handling solutions. Graco provides equipment for spray finishing, protective coating, paint circulation, lubrication, and dispensing sealants and adhesives, along with power application equipment for the contractor industry. Graco's ongoing investment in fluid management and control will continue to provide innovative solutions to a diverse global market.
