

Hoses, Guns and Accessories

For Reactor™ Spray Foam and Coatings Equipment

PROVEN QUALITY. LEADING TECHNOLOGY.

Even a Small Part Can Make a Critical Difference

O-RINGS ARE JUST ONE EXAMPLE OF GRACO'S QUALITY

Graco Part

Non-Graco Part

After spending the same amount of time submersed in solvent, the Graco O-ring (left) still fits snugly, protecting the side seal, while the non-Graco O-ring (right) expanded in diameter and swelled in cross section.

Learn more at graco.com/parts.

Don't risk your reputation with anything less

It's happened before: A critical piece of equipment meets an unfortunate end due to the failure of one, tiny component. That's why Graco doesn't build just any off-the-shelf part into its equipment. We select and manufacture high quality components our customers have come to rely on. Our equipment is superior because its parts are superior – in design, quality and performance.

Designed, tested and built for reliability

Great design is in the details. At Graco, our engineering team designs and specifies every part that's built into our machines, even down to the O-rings. We test and re-test our parts to make sure they provide you with outstanding performance, long life and durability. For example, our new Reactor 2 design went through more than 150 quality tests in our laboratory and sprayed more than 120,000 liter of material before it was approved for production. You can't afford your equipment to fail in the field. Neither can we.

Each quality part is dependent on another

Graco equipment is designed as a unified system, not as a collection of stand-alone parts. Every part is designed with a careful eye toward the parts it will interact with, and adjusted accordingly. We may machine a fastener in such a way that increases torque and causes it to clamp harder on its mating parts. We may select a specific compound for manufacturing O-rings because it provides better chemical resistance. When any of a system's parts is replaced with a lower quality, non-Graco part, the result may be a ripple effect that degrades not only its own functionality, but that of other parts throughout the system.

Protect your business with genuine Graco parts

When you need replacement parts, you could purchase cheaper alternatives. But why risk it? Off-the-shelf parts may hinder performance and possibly even damage your Graco equipment. You invest in Graco equipment because it is superior quality. It's what your business depends on. So protect your investment and your future. Trust only genuine Graco parts.

Build your ideal Reactor™ System

Graco parts are engineered for performance

Once you have determined whether to go with an air-driven, electric or hydraulic Graco Reactor, it is equally important to choose components that will create the most effective system for your needs. This brochure contains the information you need to make those choices.

For information regarding Graco Reactors, please see the Graco Fast-Set Plural-Component Equipment brochure (300615).

Build a complete system in just a few steps

- 1 Graco InSite™ Remote Reporting Technology – Pages 5-7**
If your Reactor model does not come with Graco InSite software as a standard feature, consider adding a Graco InSite kit to improve productivity and revenue for your business.
- 2 Heated Hoses – Pages 8 & 9**
Choose from pressure ratings of 138 to 240 bar (2000 psi or 3500 psi, 13.8 to 24.0 MPa). Choose 3/8 in or 1/2 in ID.
- 3 Whip Hoses – Pages 8 & 9**
Choose from pressure ratings of 138 to 240 bar (2000 psi or 3500 psi, 13.8 to 24.0 MPa). Choose 1/4 in or 3/8 in ID.
- 4 Spray Guns – Pages 10-21**
Choose an air-purge, mechanical-purge or liquid purge gun with a round or flat pattern. Also choose the tip and mix chamber for your gun. The chart on pages 20 and 21 provides helpful information.

- 5 Supply Pumps – Pages 22 & 23**
Choose from diaphragm or piston pumps for standard materials in drum-mount or wall-mount. Select a 2:1 piston pump for materials with higher viscosities.
- 6 Agitator Kits – Pages 22 & 23**
Choose a kit to agitate your resin for consistent application. Graco's Twistork® agitators are very low shear to minimize material frothing.

The power to control your business. Wherever you are.

For contractors who manage more than one jobsite, spend time away from the jobsite or want a better way to record what goes on at the jobsite, Graco InSite is the answer. It transmits data from Graco Reactors to your smart phone, computer or tablet so you can monitor progress from multiple jobsites in real time. It also keeps a log of data from each project, which you can use to make better business decisions and store for support if questions ever arise about a past job.

- **Simple** – friendly, icon-driven software is easy to learn and follow
- **Remote** – transmits real-time job activity you can view on your smart phone, tablet or computer
- **Powerful** – tracks critical job data that can help reduce costs and avoid problems
- **Proactive** – logs spray data per job, providing proof of installation parameters

Graco InSite™

Remote Reporting Technology for Electric and Hydraulic Reactors

Control the direction of your business with Graco InSite.

The kind of information Graco InSite logs for you is data that can save you money, help you bid jobs more accurately and troubleshoot problems more quickly, saving lost overhead and revenue. Most importantly, Graco InSite offers peace of mind that your jobs are running smoothly, your workers are productive, and you can leave the jobsite to pursue other important business matters.

Better fleet and crew management

- Know when your Reactors are off, idling or spraying
- Avoid the errors made and time wasted by manual logging
- Follow your Reactors with GPS tracking
- Recognize unauthorized or after-hours use of Reactors or materials
- Receive a daily email summarizing the previous day's performance totals

Ambient Temperature Probe

- Early warning system to alert you if chemicals are getting too cold
 - Available on Reactor 2 Elite models only

GPS Locator for Fleet

- See the actual GPS location of all spray rigs

GPS Locator

- See the actual GPS location of each spray rig

Job Log, Data Usage Log, Event Log

- Use icons to access and download detailed reports
- Event log available on Reactor 2 models only

Temperature and Pressure Set-points

- Rest assured that conditions are fine

Volume and Hours of Use

- See how much chemical each crew has sprayed and how long it took

Status Lights

- Red, yellow and green say at a glance if machines are off, idling or spraying

Inlet Temperature

- Records temperature and pressures of A and B materials for early troubleshooting diagnosis
 - Available on Reactor 2 Elite models only

Better cost containment and forecasting

- Know when equipment is ready for maintenance by using lifetime cycle logs
- Save lost revenue and downtime by having real-time, factual information at your fingertips

Better customer service

- Help troubleshoot issues remotely and get machines up and running faster
- Provide more accurate job estimates, basing it on actual data from prior jobs

Better protection for your future

- Have documented data showing spray parameters for every job
- Offer a final job report to customers as an additional service
- Recognize when it's time to hire additional crews and expand your fleet
- Schedule appointments with potential customers knowing that you can still check on your jobsites wherever you go

Graco InSite works by transmitting your data using the local cellular network, where it is stored in the cloud. You can then view the data on your smart phone, tablet or computer via the internet.

Graco InSite is a collaboration between Graco and 2-Track Solutions, LLC, an established leader in web-based vehicle intelligence and asset tracking.

Graco InSite is a subscription-based service; your subscription can be paid monthly or annually.

Graco Heated Hoses

Designed to achieve accurate, uniform heating

Why Graco copper-heated hoses

We strongly recommend that you use only genuine Graco heated hoses with Reactor equipment. Our machine controls are designed to communicate with the fluid temperature sensors (FTS) and provide the proper electrical power to accurately and safely heat our hoses. Graco hoses are wrapped with a copper heating element at a precise pitch to achieve accurate, uniform heating. Because knock-off hoses may not heat in the same way, you risk over- or under-heating your hoses. Mixing and matching both Graco and knock-off hoses may be even more serious. Depending on the hose into which the FTS is placed, you may have a very large difference in temperature between hoses -- potentially putting your equipment at risk for damage and creating a possible safety issue for your workers.

- Designed specifically for use with Graco Reactors
- Covered with proprietary butyl cover for protection against moisture sensitive isocyanate
- Covered with foam insulation for heat retention
- Designed with different fitting sizes on the isocyanate and resin hoses to prevent accidental connection of the wrong hoses
- Designed with a custom splice kit to electrically connect hoses without having to run copper under the fittings
- Durable – with a helix-design whip hose that uses braided copper wires for added flexibility and longer life

Protect your investment with scuff guard

Xtreme-Wrap™ Scuff Guard provides extra protection and prolonged life for your hose. You may choose a hose that comes with Xtreme-Wrap or purchase the kit to retrofit any existing Graco hose.

Fluid temperature sensors: An important safeguard

Maintaining consistent chemical temperature is critical in spraying quality foam and coatings. Graco heated hoses are designed to maintain chemical temperatures during spray operations. The use of a fluid temperature sensor (FTS) is the best way to monitor those temperatures. In addition to maintaining fluid temperature, the FTS also provides necessary feedback to the Reactor's controls to accurately and safely control the hose's heating elements. Graco always recommends placing the FTS as close to the whip hose as possible in order to monitor the material temperature nearest the dispense point. Graco offers FTS using two technologies – resistance temperature detectors (RTD) and thermocouples.

Resistance Temperature Detector (RTD)

Graco's latest advanced controls on Reactor 2 and Integrated Reactor utilize RTD technology. RTDs offer the highest accuracy and the best day-to-day repeatability of material temperatures in your hose. RTD technology allows the machine to automatically shut down if the sensor is damaged, which saves wasted time and materials.

Thermocouple

Thermocouples are a very accurate and reliable way to monitor and maintain temperature. Graco will continue to use thermocouple technology on E-20 and E-XP1 electric Reactors, and on all hydraulic and air Reactors. Hoses built with thermocouples are not interchangeable with hoses built with RTDs. Part 24N450 can be used to convert existing thermocouple hoses to RTD hoses for use on Reactor 2 and Integrated Reactor.

Instruction Manual	312666	309550	313213	309856
Applications	Residential foam insulation, roofing, other polyurethane foams and polyurea	Residential foam insulation, roofing, concrete, waterproofing and other polyurethane foams and elastomeric coatings	Residential foam insulation, roofing, concrete, waterproofing and other polyurethane foams and elastomeric coatings	Residential foam insulation, roofing, concrete, waterproofing and other polyurethane foams and elastomeric coatings

Liquid-Purge Gun

Unprecedented features that will change the way you spray

Fusion™ CS with ClearShot™ Technology – A new class of spray gun

Graco's Fusion CS plural-component spray gun with ClearShot (CS) Technology delivers improved productivity and performance throughout the spray day. The secret of the revolutionary ClearShot Technology is the ClearShot Liquid, which is inserted into the gun's handle. Every time you pull the trigger, ClearShot Liquid is dispensed into the mix chamber and helps remove any built-up chemical, keeping it clean and virtually eliminating drilling of the mix chamber.

Liquid-Purge Gun

- Reduces purge air by 75%, minimizing material blowback
- Gain flexibility and manoeuvrability to spray in small, tight areas

Patented Quick-Change Front End

- Change fluid head in seconds
- Non-stick polymer cover for easy clean-up
 - "Air knife" – reduces material build-up

Chromex™-Coated Side Seals and Mix Chamber

- Precision machined hardened stainless steel for longer life
- More resistance to corrosion and wear
 - Save time and money in replacements over the long-term

Variable Flow Setting

- Switch from large to small spray patterns in seconds
- Ten different settings

Air and Dosing Piston

- For precise ClearShot dispensing

Screw-in-Place Side Seals

- Overall maintenance is quicker and simpler
- Fewer O-rings ensure better crossover protection and keep appropriate mix and proportions of material for better end results

Manifold

- Easy on/off valves
- Check valves block fluid flow when manifold is disconnected
- Quick filter screen change-outs

Faster/Shorter Trigger Pull

- Responsive trigger delivers quick shots
 - Diminishes operator fatigue

ClearShot Cartridge

- Keeps mix chamber clear

Air-Purge Guns

Plural-component spraying made easy

Fusion™ Air-Purge (AP) Gun – Easy to use, easy to maintain

With convenient features and a smooth, ergonomic handle, the Fusion AP will give you days of spraying without fatigue.

- Air-blast tip cleaning reduces build-up and tip clogging
- Hardened stainless steel mix chambers are built to last
- Longer life side seals reduce maintenance and let you spray a wider range of materials – stainless steel or PolyCarballoy options
- Advanced mix module and tip design improves mixing
- Solvent-resistant components and O-rings let you soak the whole gun without swelling or damage
- Daily maintenance in a matter of seconds with the quick-shot grease port
- Easy-to-use design makes maintenance quick and easy

Hand-Tightened Front Cap

- Clean and maintain seals and mix chamber without tools

Durable Side Seals

- Rugged stainless steel or PolyCarballoy construction for longer life

Cyclone-Mix™ Chamber

- Precision-machined, hardened stainless steel construction for longer life

Air Piston

- Powerful on/off actuation

Safety Stop

- Manual on/off

Quick-Release Fluid Housing

- Easily change mix chambers without tools

Check Valves with Screens

- Cartridge design for easy maintenance

Ergonomic Handle

- Smooth curved handle improves operator comfort and reduces fatigue

118665	Fusion lube, 4 oz tube (248279 – pack of 10)
119386	Drill bit kit, 20 piece, #61 - #81
244914	Air-Purge gun cover kit, pack of 10
246012	Fluid manifold assembly
246347	Side seal O-ring kit, includes (6) O-rings for both cartridges
246348	Side seal kit, includes (2) side seals with O-rings
246349	A (ISO) cartridge assembly, A-side, SST, seal and O-rings
246350	B (Poly) cartridge assembly, B-side, SST, seal and O-rings
246351	Check valve seal repair kit
246352	Check valve assembly, B (Poly)
246354	O-ring, clean off air, pack of 6
246355	Gun seal repair kit, includes all necessary O-rings for the entire gun assembly
246356	Fluid manifold valve repair kit
246357	Gun filter, 40 mesh, pack of 10
246358	Gun filter, 60 mesh, pack of 10
246359	Gun filter, 80 mesh, pack of 10
246360	Flat tip sealing O-ring kit, pack of 3
246361	Quick change front half spray head kit, includes entire spray head assembly less mix chamber. Order mix chamber separately.
246731	Check valve assembly, A (ISO)
246944	Manifold conversion kit; converts Fusion manifold to fit a GX-7 gun. Fusion manifold 246012 not included.
246945	Manifold conversion kit; converts GX-7 manifold to fit a Fusion gun
248129	Check valve O-ring, radial, pack of 6
248130	Side seal housing O-ring kit, pack of 6
248132	O-ring, fluid housing, pack of 6
248133	Check valve O-ring, face, pack of 6
248139	Solvent flush kit, .95 l (1 qt) pressurized container for solvent flushing gun before service
248229	20 liter (5 gal) Fusion Gun flush system
248279	Fusion lube for lubricating threads, O-rings, components, pack of 10
248280	Fusion grease, pack of 10
248414	Adhesive/spatter kit, converts Fusion Air-Purge to adhesive/spatter gun
248415	Tip for adhesive/spatter gun
248528	Fusion Air-Purge pour adapter kit

FUSION AIR-PURGE EXTENSION TIP KITS

248010	Extension tip kit for AR2020/AF2929 mix chamber
248011	Extension tip kit for AR2929/AF2929 mix chamber
248012	Extension tip kit for AR4242/AF4242 mix chamber
248013	Extension tip kit for AR5252/AF5252 mix chamber
248014	Extension tip kit for AR2020/AF2929 mix chamber
248015	Extension tip kit for AR2929/AF2929 mix chamber
248016	Extension tip kit for AR4242/AF4242 mix chamber
248017	Extension tip kit for AR5252/AF5252 mix chamber
248020	Extension tip air cap kit
248018	Flat extension tip seal kit
248019	Round extension tip seal kit
249421	Fusion stud wall kit
24C358	Fusion TP 100 tip kit

Air Purge Guns

Plural-component spraying made easy

Probler (P2) Gun – Compact and Ergonomic

Recognized by the industry for its superior performance, the P2 gun's light, comfortable design lets you spray and manoeuvre easily – even in difficult spraying positions. At the end of the day, maintenance is easy. No cleaning small air passages with tiny drill bits. The P2 has check valves that prevent the liquid portion from infiltrating the dry side of the gun.

Grease Fitting

- For quick daily maintenance

Two-Piece Mix Chamber

- Easily replace the mix chamber insert instead of the entire chamber
- Designed to reduce downtime

Safety Stop

- Manual on/off

Ergonomic Handle and Balanced Design

- Comfortable, compact and lightweight

Powerful Dual Air Piston

- Responsive trigger action – double piston design provides more than 136 kg (300 pounds) of triggering force
- Provides strong actuation force
- Increases mix chamber on/off force

Redesigned Side Blocks

- Quick filter screen change-outs without taking off side blocks
- Easier maintenance

P2 Elite Gun

- Side blocks offer alternate hose routing configurations
- Allows access to ISO and resin filters without removing side blocks
- Allows for use of additional accessories

Mechanical-Purge Guns

Optimal material mix

Fusion Mechanical Purge (MP) Gun – Designed for superior mixing

- Handles from very low output, thin mil applications to large, high flow, high-output applications just by changing the mix module and tip
- Easy mechanical cleaning – mix modules and tips are cleaned with a drill bit
- Smoother finish and better atomization
- Offers more advanced features than all other mechanical-purge guns combined
- Long-lasting mix modules provide excellent mixing
- Advanced mix module and tip design provides excellent mix and material properties, and significantly reduces repair and maintenance costs

FUSION MECHANICAL-PURGE FLAT TIPS

FTM317	Kit, flat tip, mechanical-purge, 152 mm (6 in) pattern, very low flow
FTM424	Kit, flat tip, mechanical-purge, 203 mm (8 in) pattern, low flow
FTM438	Kit, flat tip, mechanical-purge, 203 mm (8 in) pattern, medium flow
FTM624	Kit, flat tip, mechanical-purge, 305 mm (12 in) pattern, low flow
FTM638	Kit, flat tip, mechanical-purge, 305 mm (12 in) pattern, medium flow
FTM838	Kit, flat tip, mechanical-purge, 406 mm (16 in) pattern, medium flow
FTM848	Kit, flat tip, mechanical-purge, 406 mm (16 in) pattern, high flow

FUSION MECHANICAL-PURGE PARTS AND ACCESSORIES

244915	Mechanical-Purge gun cover kit, pack of 10
248603	Kit converts Fusion MP gun to Solvent-Purge
248642	Static mixer assembly for Solvent-Purge Gun, 76 mm (3 in)
248682	Fusion Mechanical pour adapter kit
15D546	Fusion gun cleaning kit
119386	Drill bit kit, 20-piece, #61-#81
248000	Kit, complete O-ring, Fusion MP
248001	Kit, purge rod
248003	Kit, front/rear packing, pack of 4

FUSION MECHANICAL-PURGE REPLACEMENT PARTS KIT

24X572	Fusion MP Parts Kit, complete with refillable case

Gun Accessories

Choosing the correct mix chambers, modules and tips

Choosing the right tips and mix chambers

1. Choose a Round or Flat pattern for your tip or mix chamber (typically round for foam and flat for coatings)
2. Specify "A" and "B" size for your orifice or chamber
3. Specify the desired tip size for your application

LEGEND

Fusion CS:

- RD = Round Mix Chamber
- WD = Wide Mix Chamber
- FL = Flat Mix Chamber
- FT = Flat Tip

Fusion AP:

- AR = Air (purge) Round Mix Chamber
- AF = Air (purge) Flat Mix Chamber
- AW = Air Wide Round Mix Chamber
- FT = Flat Tip (air-purge)

Fusion MP:

- MR = Mechanical (purge) Round
- XR = Direct Impinge Round
- RTM = Round Tip Mechanical (purge)
- MF = Mechanical (Purge) Flat
- XF = Direct Impinge Flat
- FTM = Flat Tip Mechanical (purge)

CHAMBER/ORIFICE CONVERSION

Use this conversion chart to convert the Chamber size to the Orifice size.

Chamber Size	Orifice Size
000	.020
00	.029
01	.042
02	.052
03	.060
04	.070
05	.086

Gun	Mix Chamber/Tip	Pattern at 61 cm (24 in) from target	Polyurea in liter/min (gpm) @ 138 bar (2000 psi)	Foam in kg/min (lb/min) @ 1000 psi

PART NUMBER EXAMPLES

FT0438

Fusion CS or Fusion AP Flat Tip
 Fan Pattern Width = 8 in (203 mm) (double this number)
 Tip Orifice Size = .038 in (0,96 mm)

RD0202

Fusion CS Round Mix Chamber
 First 02 = "A" (ISO) Chamber Size
 Second 02 = "B" (RES) Chamber Size

AF4242

Fusion AP Flat Mix Chamber
 First 42 = "A" (ISO) Orifice Size = .042 in (1,6 mm)
 Second 42 = "B" (RES) Orifice Size = .042 in (1,6 mm)

FTM424

Fusion MP Flat Tip Mechanical
 Fan Pattern Width = 8 in (203 mm) (double this number)
 Tip Orifice Size = .024 in (0,61 mm)

RTM030

Fusion MP Round Tip Mechanical
 Tip Orifice Size = .030 in (0,76 mm)

MR 3535

Fusion MP Mechanical Round Mix Module
 First 35 = "A" (ISO) Orifice Size = .035 in (0,89 mm)
 Second 35 = "B" (RES) Orifice Size = .035 in (0,89 mm)

Transfer Pumps and Agitator Kits

Engineered for more output, better performance and great value

T1 and T2 Transfer Pumps – Reliable and Cost Effective

- The T2 design doubles the output – from 9.5 to 19 liter 2.5 to 5.0 gpm – able to keep up with high-output proportioners
- The smaller T1 pump allows for lower 2:1 output, ideal for spraying applications
- Quick-disconnect feature allows easier drum removal and faster change-outs
- Improved fluid intake easily handles higher viscosity materials – even in cold conditions

	Part Number	Ratio	Maximum output – continuous	Maximum output – intermittent	Maximum input air pressure	Maximum output fluid pressure	Maximum ambient temperature	Maximum fluid temperature	Weight	Dimensions	Manual Number
T1	256200	2:1	9.5 lpm (2.5 gpm)	15 lpm (4.0 gpm)	12 bar (180 psi, 1.2 MPa)	25 bar (360 psi, 2.5 MPa)	50°C (120°F)	82°C (180°F)	8.4 kg (18 lb)	130.8 cm (51.5 in) length; 66 mm (2.6 in) diameter (cap)	312766
T2	295616	2.25:1	19 lpm (5.0 gpm)	28 lpm (7.5 gpm)	12 bar (180 psi, 1.2 MPa)	28 bar (405 psi, 2.8 MPa)	50°C (120°F)	88°C (190°F)	9.5 kg (21 lb)	137 cm (54 in) length; 89 mm (3.5 in) diameter (cap)	311882

Quick-release Bung Adapter

For easy drum removal without interference from hose connections

Corrosion-resistant Components

Stainless steel wetted parts

PTFE Seals

Improved performance for less maintenance

◀ TWISTORK™ HELIX MIXER

- Air-operated with a variable-speed, 1.5 HP motor, capable of 7 bar (100 psi, 0.7 MPa) maximum working pressure
- Available in carbon steel and stainless steel
- Built for long-life, corrosion-resistance and structural integrity
- Helix-shaped mixing blades are threaded through a closed-head drum's standard bung opening
- Heavy-duty agitator features lube-free assembly, eliminating fluid contamination
- Gentle mixing reduces degradation and splashing, compared to propeller blades
- Option for agitator speed control

Ordering Information

Transfer pumps and agitators

COMPLETE SUPPLY PUMP SYSTEMS

(Includes the following: All air and fluid fittings, hoses for two pumps.)

- 247955..... Complete T1 (247956) supply pump system
- 246081..... Complete T2 (246898) supply pump system
- 246655..... Complete Triton™ 308 (246677) supply pump system
- 246369..... Complete Husky™ 515 (246481) supply pump system
- 246375..... Complete Husky™ 716 (246482) supply pump system
- 246376..... Complete Husky™ 1050 (246676) supply pump system

SUPPLY PUMPS WITH DRUM RISER TUBE

- 256200..... T1 2:1 ratio piston pump for higher viscosity materials, 25 bar (360 psi) max fluid pressure, 9.5 liter (2.5 gpm) @ 100 cpm
- 295616..... T2 2:1 ratio piston pump for higher viscosity materials, 28 bar (405 psi) max fluid pressure, 24 liter (5.0 gpm) @ 100 cpm
- 246654..... Triton 308 diaphragm pump, aluminium, 3/8 in fluid outlet, 8 bar (115 psi) max air inlet, 7.6 liter (2.0 gpm) @ 60 cpm
- 246366..... Husky 515 diaphragm pump, acetal bolted design, 6.8 bar (100 psi) max air inlet, 28 liter (7.5 gpm) @ 60 cpm
- 246367..... Husky 716 diaphragm pump, aluminium clamped design, 6.8 bar (100 psi) max air inlet, 28 liter (7.5 gpm) @ 60 cpm
- 246368..... Husky 1050 diaphragm pump for trailer mounts – aluminium, bolted, wall mount, 8.6 bar (125 psi) max air inlet, 34 liter (9 gpm) @ 60 cpm
- 248825..... 5:1 Monark™ drum pump, for high viscosity materials, 900 psi max fluid psi, 3m(10 ft) hose, 3/4 npt (m), air regulator, manual 310863

TWO SUPPLY PUMPS WITH FLUID PLUMBING

- 247956..... T1 pumps with supply hoses
- 246898..... T2 pumps with supply hoses
- 246677..... Triton 308 (246654), 3m x 19mm (10 ft x 3/4 in) supply hose
- 246481..... Husky 515 (246366), 3m x 19mm (10 ft x 3/4 in) supply hose
- 246482..... Husky 716 (246367), 3m x 19mm (10 ft x 3/4 in) supply hose
- 246676..... Husky 1050 (246368), 3m x 19mm (10 ft x 3/4 in) supply hose, 1.8m x 19mm (6 ft x 3/4 in) suction hose

SUPPLY PUMP ACCESSORIES

- 246419..... 208l (55 gal) feed pump tube with inlet ball check
- 246477..... 19mm (3/4 in) bung return tube with air dryer port
- 246483..... Air distribution kit, 8.4 bar (120 psi, 0.84 MPa) for two feed pumps and a Fusion gun
- 247616..... Desiccant dryer kit
- 246978..... Reactor manifold circulation kit with return tubes, return fluid lines and dryers
- 15C381 Desiccant replacement

AGITATORS

- 224854..... Twistork CS, air-operated, 1-1/2 HP, 0.9m (37.3 in) length
- 235534..... Twistork SST, air-operated, 1-1/2 HP, 0.9m (37.3 in) length
- 236629..... Twistork SST, air-operated with built-in return tube, 3/4 HP, 1.2m (47.5 in) in length
- 248824..... Twistork CS, air-operated (224854), 1-1/2 HP, 0.9m (37.3 in) with air hose
- 24C728 Expanding blade mixer, low viscosity, up to 1000 centipoise
- 24C729 Expanding blade mixer, high-viscosity, up to 2000 centipoise

ABOUT GRACO

Founded in 1926, Graco is a world leader in fluid handling systems and components. Graco products move, measure, control, dispense and apply a wide range of fluids and viscous materials used in vehicle lubrication, commercial and industrial settings.

The company's success is based on its unwavering commitment to technical excellence, world-class manufacturing and unparalleled customer service. Working closely with qualified distributors, Graco offers systems, products and technology that set the quality standard in a wide range of fluid handling solutions. Graco provides equipment for spray finishing, protective coating, paint circulation, lubrication, and dispensing sealants and adhesives, along with power application equipment for the contractor industry. Graco's ongoing investment in fluid management and control will continue to provide innovative solutions to a diverse global market.
